Malta

Located right in the middle of the **Mediterranean**, the Maltese Islands are some of the richest in the region – promising diverse culture, a dynamic history, welcoming people and eclectic attractions.

With an area of just **316sq km**, the Maltese Archipelago is one of the smallest in the world. Yet it is also one of the densest, with over 417,000* residents. Only the three largest islands - **Malta, Gozo and Comino** - are inhabited. Within the country there are 67 local councils; 53 in Malta and 14 in Gozo. The Islands are enviably located in the passageway between Africa and Europe, 93km south of Sicily and 288km north of Libya.

Malta is the largest of the three islands, and remains the **cultural, commercial and administrative centre**. **Gozo** is the second largest island and more rural; it is known for its more abundant countryside and open spaces. **Comino**, while largely uninhabited, is a popular destination for day-trippers and hikers.

Visitors to the Islands are often attracted to the archetypal, **Mediterranean climate**, which is typified by hot summers and mild winters. But there is a lot more to keep them busy, including expansive beaches, a thriving nightlife and 7,000 years of intriguing history.

Valletta

Valletta is Malta's capital and the country's economic and administrative center. It is an important **cultural and tourist center** rich in history, bringing together more than **300 monuments** spread over 55 hectares. Characterized predominantly by Baroque architecture, one of Valletta's distinguishing features is its charmingly colorful balconies adorning the facades of buildings.

With a history spanning 7,000 years, Valletta has earned recognition as a **UNESCO World Heritage Site** offering visitors a glimpse into its past through museums, ancient art, and historical artifacts. Notably, the capital is adorned with 25 churches and numerous sculptures of saints and virgins adorning the corners of its main streets.

St. John's Co-Cathedral is one of the largest cathedrals in the world and one. Inside, there is the only painting in the world signed by Caravaggio. The large central nave is surrounded by 8 side chapels, and the floor houses the tombs of the Knights of the Order.

The **Barrakka Gardens** are a perfect place to relax and enjoy a unique panorama over the entire city. Every day at noon, from the Upper Gardens, cannon salutes are fired by people dressed in traditional historical clothing, one at 12:00 and another at 16:00.

The **Grand Master's Palace** is the former residence of the Grand Master of the Order of Malta. Today it serves as the office for the President of Malta but remains open to the public for visits. The palace also houses the Armoury Museum.

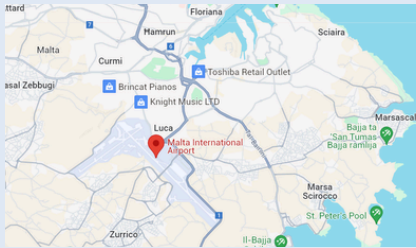

The weather

The Maltese climate is **Mediterranean-subtropical**, featuring mild winters and hot, dry summers, softened by coastal sea breezes. It boasts one of Europe's highest annual **average** temperatures at **19°C**. Annual rainfall is below 600 mm, and the sea temperature averages 20°C, contributing to Malta being **one of the sunniest places in Europe** with 3,000 hours of sunshine annually.
